

Thumb Rocker – AR4

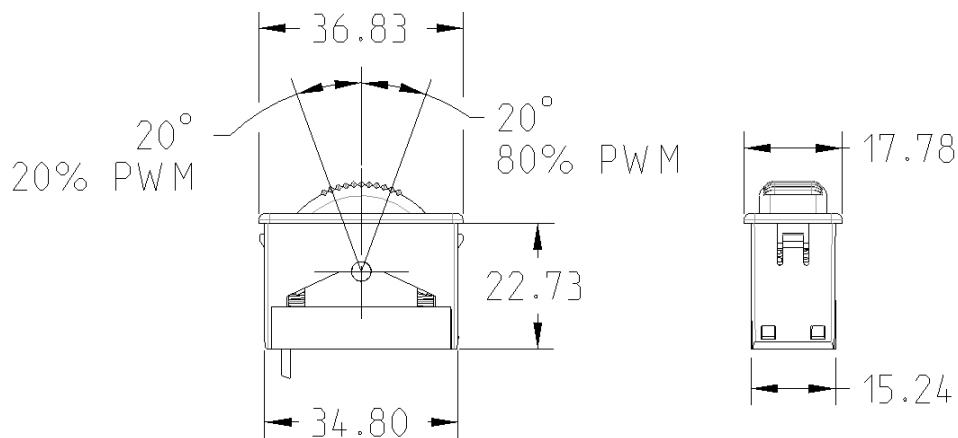

Standard Features:

- Thumb wheel design
- IP67 rated
- Life greater than 500.000 cycles
- Contactless Hall effect sensing
- Operating and storage temperature: -40° to +85°C
- Operating effort: 6 Nm

Available Configurations:

- Voltage output: 2 Hall cell version (redundant)
- PWM output: single hall cell version

AR4 Wiring:

For VO2 output:

Power: White/Orange
Ground: White/Brown
Output 1: White/Green
Output 2: White/Yellow

For PWM output:

Power: White
Ground: Brown
Roller Signal: Yellow
Calibration: Violet

Supply voltage min. 7Vdc to max. 11Vdc
